

The team of researchers at the Sicily Marine Center (Palermo) Stazione Zoologica Anton Dohrn has published the calls for 3 research grants lasting 12 months, for profiles concerning various aspects of the fishery ecology and the management and conservation of marine resources. We are looking for very motivated young researchers with experience in the evaluation of fishing resources, modelling, analysis of the responses of benthic communities (with particular reference to the investigation of the biodiversity and functioning relationship of the deep habitats

off the continental shelf and escarpment), socio-ecological systems related to both small fishing and industrial fishing, for the realization of an integrated ecosystem approach model on a regional scale in Sicily.

Project “Rete integrata per il monitoraggio e la produzione di un modello regionale di gestione delle risorse e degli ecosistemi marini nei Golfi di Castellammare, Patti e Catania - Rete 3 Golfi”.

To access the selection a MSc or Phd is required, as well as at least 1 scientific publication ISI peer reviewed with IF.

Calls can be downloaded at <https://www.szn.it/index.php/it/bandi-e-concorsi/bandi-di-concorso/assegni-di-ricerca/bandi-attivi>

Assegno di Ricerca n. 23/2022 (scadenza 14/10)

Assegno di Ricerca n. 27/2022 (scadenza 17/10)

Assegno di Ricerca n. 28/2022 (scadenza 18/10)
